WHAT WE STAND FOR

1 **Compliance**

We help clients meet statutory, tax and regulatory requirements, and we hold ourselves to the same standard.

2 **Innovation**

Custom software, automation and AI applied to real operational problems, built to fit the client.

3 **Customer satisfaction**

Tailored services, dependable delivery and hands-on support from first request to final handover.

WHO WE SERVE

- Private corporations
- Government institutions
- Healthcare organisations
- Local communities

QUALITY • INTEGRITY • RELIABILITY

WHAT WE DO

Seven divisions, one dependable partner.

01 Corporate Statutory, PACRA & Business Compliance

- **PACRA registrations:** business name registration (sole proprietorships and partnerships), private limited company incorporation (Ltd / PLC), and company name search and reservation.
- **Statutory compliance and filings:** PACRA annual returns, director and shareholder updates, share capital restructuring, Articles of Association amendments and official company extracts.
- **Tax and institutional registrations:** ZRA TPIN, Tax Clearance Certificates (TCC), NAPSA employer and employee registration, Workers' Compensation (WCFCB) registration and local council business permits.

02 Environmental & ZEMA Regulatory Services

- **Environmental Project Briefs (EPB):** preparation and submission of the documentation required for small-to-medium developments.
- **Environmental Impact Assessments (EIA):** studies and reporting for industrial, commercial, agricultural and construction ventures.
- **Audits and inspections:** compliance monitoring, risk assessments, gap audits and site evaluations.
- **Waste and pollution control:** waste management plans, hazardous materials guidance and disposal compliance.
- **ZEMA licensing:** approvals, permits and compliance certifications.

03 Software Engineering & Core Development

- **Custom software development:** tailored web applications, cross-platform mobile apps (iOS and Android) and desktop software.
- **Website design and development:** responsive, fast-loading, SEO-friendly corporate websites and client portals.
- **System integration:** connecting accounting, POS, inventory and ERP software into unified, automated workflows.
- **Database architecture:** secure, scalable, ACID-compliant design for data integrity and fast retrieval.

04 Advanced Systems, Operations Management & AI Solutions

- **Business process automation:** removing repetitive paperwork, data-entry errors and approval delays.
- **Practice and operations management:** purpose-built for private healthcare surgeries, clinics and offices, covering patient records, consultation history, appointment scheduling and automated billing.
- **AI-powered business solutions:** smart OCR document parsing, 24/7 WhatsApp customer-service bots, intelligent data extraction and predictive analytics.
- **Dashboards and analytics:** real-time executive dashboards, revenue trackers and cross-system analytics.
- **Maintenance and support retainers:** monthly upkeep, 24/7 uptime monitoring, cloud backups, database tuning and security patching.

05 Building Materials, Hardware & Construction

- **Building and construction materials:** cement (50 kg bags), building sand, aggregates and masonry supplies.
- **Hardware, tools and equipment:** wheelbarrows, spades, shovels, hand tools, plumbing pipes, PVC fittings and power tools.
- **Safety and protective wear (PPE):** hard hats, high-vis vests, steel-toe boots, goggles and heavy-duty gloves.
- **Paints and renovation supplies:** paints, primers, brushes, rollers, light bulbs, wiring and fixtures.

06 Office, School, Cleaning & General Merchandise

- **Stationery and office supplies:** A4/A3 paper, notebooks, box files, pens, desk organisers and custom registers.
- **Office furniture and IT equipment:** desks, ergonomic chairs, laptops, monitors, surge extensions and storage devices.
- **Cleaning and sanitation:** industrial cleaning chemicals, detergents, medical-grade hand sanitisers, mop buckets and bin liners.
- **Staff pantry essentials:** tea, coffee, sugar, creamers, bottled spring water and refreshments.

07 Procurement, Logistics & Advisory Services

- **Procurement and sourcing:** specialised product sourcing, tender fulfilment and supply-chain procurement to client specifications.
- **Wholesale and retail:** competitive volume pricing on bulk institutional purchases and individual orders.
- **Delivery and support:** reliable transport to your clinic, site, office or residence, with hands-on installation support.

HEALTHCARE FOCUS

Built with healthcare in mind

- **Practice and operations management** software for private surgeries, clinics and offices.
- A **NMCZ-licensed registered nurse** directing healthcare operations compliance, medical supplies advisory and clinical system implementation.
- An **HPCZ-licensed oral surgeon** in company leadership, providing clinical insight.
- Secure **custom software and database architecture** for sensitive records.
- Currently developing a **Zambian digital mental health platform** for patients and registered practitioners.

One team for compliance, technology and supply. Whether you need a company registered, a system built, an assessment filed or a site supplied, Wellsphere delivers it under one roof.

OUR PEOPLE

Leadership and professional team.

Dr Precious Mucheta

Director | Cybersecurity Analyst | Graphic Designer | Content Creator | Oral Surgeon

Bachelor's degree in Oral Surgery • HPCZ licensed • CBU graduate

Dr Precious Mucheta leads Wellsphere's corporate strategy and oversees its cybersecurity posture, visual branding and content design. As an oral surgeon, she also provides specialised clinical surgical consultation, bringing valuable clinical insight to the company's health-related work.

Davies Mpundu

Environmental Engineer

Bachelor's degree in Environmental Engineering • EIZ registered • CBU graduate

Davies Mpundu is an environmental engineer who leads the company's environmental compliance work. He prepares Environmental Impact Assessments and Project Briefs, carries out environmental monitoring, and manages regulatory engagements with ZEMA, helping clients meet their obligations with confidence.

Winston Zulu

Software Engineer

Winston Zulu is a software developer and product builder who turns real-world business and operational challenges into practical digital solutions. He works across web, mobile, AI and business systems, with a strong focus on reliable, user-friendly products that solve meaningful problems.

Martin Chilungu

Registered Nurse

Diploma in Registered Nursing • NMCZ licensed

Martin Chilungu is a dedicated nurse trained at Mansa College of Nursing, with experience in patient care, community health, sales and customer service. He has taken part in community health initiatives and team leadership activities, and is committed to compassionate, quality, patient-centred healthcare.

CBU: Copperbelt University | HPCZ: Health Professions Council of Zambia | EIZ: Engineering Institution of Zambia | NMCZ: Nursing and Midwifery Council of Zambia

OUR PEOPLE | CONTINUED

Finance, infrastructure and operations.

Innocent Mucheta

Accountant

Bachelor's degree • ZICA member • CBU graduate

Innocent Mucheta is an accountant who manages the company's financial accounting and ZRA tax compliance. He prepares the business for audits and supports corporate financial planning, keeping records accurate, compliant and ready for scrutiny so that management can make confident decisions.

Honest Mucheta

Telecommunication Engineer

EIZ accredited • CBU graduate

Honest Mucheta is a telecommunication engineer who oversees network architecture and telecommunications infrastructure. He leads hardware installation and systems integration, making sure the company's technical solutions are properly connected, dependable and built to last, from the first cable to the final handover.

Mable Mutale

Business Administrator

Mable Mutale is the company's business administrator, handling day-to-day corporate administration and client relations. She coordinates procurement logistics and office operations, keeping the business organised, responsive and dependable for clients and colleagues alike, and ensuring every request is followed through.

7

PROFESSIONALS

One team across engineering, healthcare, finance and administration.

Every project is supported by the right specialist, from compliance and construction supplies to software and clinical practice.

CBU: Copperbelt University | EIZ: Engineering Institution of Zambia | ZICA: Zambia Institute of Chartered Accountants
